Utilities

Utilities are (usually) fuel services provided to residential and business properties. They include gas, electricity, water and telephone. The UK utility market is now de-regulated and open for competition by private companies offering cheaper bills.

As with all services, competition is fierce and it is not always easy to find out who can give you the best service at the best price. All the UK regulated utility providers, offer “special services” to people with disabilities. If you are happy with your supplier of gas, electricity etc and have special needs contact them on the numbers given below and ensure that you receive the service that you require.

GAS

British Gas Home Energy offers a Priority Service Register "Gas Care Register" service for disabled or older customers.

Priority Service Register services include:-

- A free Gas Safety Check
- Special adapters or controls
- Mark appliances for the blind or partially sighted
- Password Scheme to identify British Gas employees if they need to call

- Talking Bills, Braille and large print for blind and partially sighted customers
- Access by "Type talk" and Text phones for Deaf and hearing impaired customers
- Priority scheme
- Moving your gas and/or electricity meters

If you want to know more about the Priority Service Register or any other service on offer, ring Gas Priority Service Register.

You can register now for extra help by calling:
